EXPERIENCE

TRENDY — Full Stack Development Intern | Bhopal, India | Nov 2025 – Aug 2026

- Developed and deployed full-stack web applications using Next.js, React, TypeScript, Node.js, Firebase and MongoDB across frontend, backend and database layers.
- Built the Trendy Campus Ambassador Platform (TCAP), implementing application workflows, user management, administrative features and cloud-backed data handling.
- Integrated APIs, configured production deployments on Vercel and Hostinger, and troubleshot authentication, database and deployment issues.

PROJECTS

Trendy Campus Ambassador Platform (TCAP) | Next.js, React, TypeScript, Tailwind CSS, Firebase Firestore

- Built responsive applicant/admin interfaces with Firestore-backed application data, user workflows and administrative operations.
- Configured production hosting and domain settings and resolved deployment and authentication issues.

RiskNexus — Cyber Risk Quantification Platform | Go, Gradle, Python, FastAPI, MySQL, Next.js, AI/LLMs

- Developed a platform for organizational cyber-risk assessment by connecting asset, vulnerability and business-impact context.
- Designed risk workflows using CVE/KEV status, EPSS and financial impact to produce business-oriented risk insights, with AI/LLM-assisted analysis and explanations.
- Implemented backend APIs and data-processing components and configured services for testing and demonstration.
